

Flutter Roadmap

Stage09 - Validation &Forms

Prepared by:

Momen Mohammed Kraizem

Computer Engineering Graduate

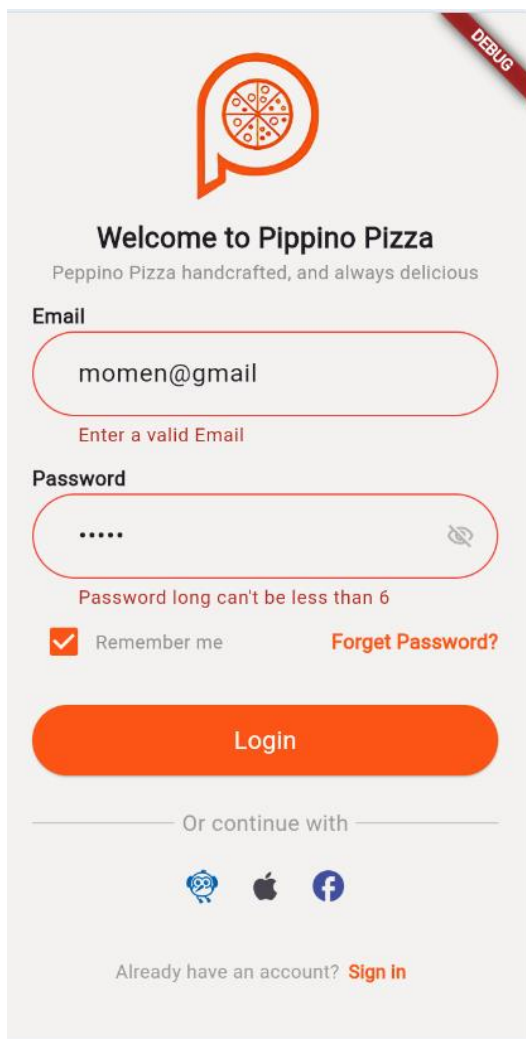

20 July 2026

Login Form

Updated the Login UI from Stage 7 by adding form validation, email validation, password validation, and show/hide password functionality.

```
validator: (value) {  
  if (value == null || value.isEmpty) {  
    return "Can't be empty";  
  } else if (!value.contains("@") ||  
!value.contains(".com")) {  
    return "Enter a valid Email";  
  }  
  return null;  
}
```

```
validator: (value) {  
  if (value == null || value.isEmpty) {  
    return "Can't be Empty";  
  } else if (value.length < 6) {  
    return "Password long can't be less than 6";  
  }  
  return null;  
},
```
